

Recently two on air personalities at G105, a Clear Channel Station, on the "Bob and Madison" encouraged listeners to commit crimes of Vehicular Assault upon cyclists. As a cyclist and an parent of a child at a school who recently lost a father who was cycling to a careless driver I find such comments reprehensible, but seemingly typical of this show and many Clear Channel stations. I encourage the FCC to do whatever they can to send a message to these on air personalities, their station and Clear Channel that such comments are not only careless, but reckless and put millions of American cyclists at risk.
